EXPERIENCE

Genpact

Mar 2026 - Jun 2026

Data Engineering Intern

- Built ETL pipelines with **PySpark, SQL and Databricks** for structured data processing.
- Developed data quality dashboards and KPI monitoring for governance and compliance reporting.
- Used **Delta Lake** tables for transformations, validation and analytical reporting.
- Collaborated in an Agile team using Git, Linux and Databricks workflows.

PROJECTS

Metadata Governance & Monitoring Platform

- Analyzed governance validation outputs across metadata ownership, classifications, completeness and structural compliance.
- Designed dashboards tracking data quality KPIs, issue categories, risk levels and recommended actions.
- Prepared PySpark and SQL datasets for AI/BI reporting and natural-language exploration with Databricks Genie.

TECH STACK

Databricks | PySpark | SQL | Delta Lake | Unity Catalog | Databricks Genie

Novacart Data Platform

- Designed an Azure lakehouse using Blob Storage, Event Grid, Databricks, Delta Lake and Medallion Architecture.
- Developed PySpark and SQL ingestion and transformation workflows across Bronze, Silver and Gold layers.
- Managed cloud permissions, GitHub integration and feature-branch development.

TECH STACK

Azure | Blob Storage | Event Grid | Databricks | PySpark | SQL | Delta Lake | GitHub

EDUCATION & TRAINING

International Balkan University 2021 - Present

B.Sc. Computer Engineering (in progress)

GigaAcademy Kosovo Mar - Jun 2026

Data Engineering Academy

CERTIFICATIONS & COURSES

Databricks Certified Data Engineer Associate - 2026

CS50: Introduction to Computer Science

Harvard University

LANGUAGES

Albanian	Native
English	Professional
Turkish	Professional

TECHNICAL SKILLS

Programming
Python, SQL, C++, C#

Data Engineering
PySpark, Databricks, ETL/ELT, Delta Lake, Data Warehousing, Medallion Architecture

Cloud & Tools
Azure, Git, GitHub, Linux

Data Practices
Data Quality, Metadata Governance, KPI Monitoring
